	Continuing							1		2	1
Total	New	15	27	22	32	19	30	24	31	23	21
	Continuing	9	5	12	4	12	8	8	4	11	11

[Note] 1. Record data for each undergraduate or graduate school in which instructors, or assistant instructors are employed full-time.

2. Joint research, as referred to in this table, refers to the acceptance of research staff and funding from private-sector corporations, etc., for joint research about a shared topic involving university instructors and researchers.

Do not include joint research within the university. "Commissioned research" refers to research done by the instructors and researchers of the university commissioned by private sector companies and local governments, etc.

3. When multiple schools and departments are engaged jointly in industry-academia-government collaborative research activities, do not record these activities in duplicate.

4. Record research activities which extend over multiple years in the "New" column for the first year and in the "Continuing" column in subsequent years.
