Retirement Age of Professor: 68,
Instructors Excluding Professors: 65

[Note] 1. Create a table of full-time instructors of undergraduate and graduate schools (or other organizations) by department.
    If an instructor in charge of a general education course is assigned to an undergraduate school while general education is commonly provided throughout the university, exclude the number of such instructors from the number of instructors of the undergraduate school and create a table of instructors in charge of general education separately in conformity with the table of instructors of undergraduate schools.
    2. Enter the ratio of the item to the total at the bottom of each column.
