[Note] 1. Enter this data for all faculty offices possessed by undergraduate and graduate schools in the "Rooms" and "Total Area" columns.

2. Calculate the "Average Area per Room" for all faculty offices and calculate the "Average Area per Instructor" for faculty offices actually in use by full-time instructors of undergraduate and graduate schools.

3. When calculating the "Ratio of Private Rooms," if the number of private rooms exceeds the number of full-time instructors, in principle, enter 100%.

4. Enter the number of instructors that do not have a private room in the "Note" column.

[Note: KG] The rooms used by Seiwa Junior College are not included in the Seiwa Campus.
