As a general rule, enter data at the department level for schools, and the major level for the graduate schools.

For “Number of Students Enrolled (A),” enter the same number as in “Number of Students Enrolled” field in Table 2. For “Of which are Repeaters (B)” and “Of which are Withdrawals (C),” enter the number of students whose advancement was delayed or who withdrew between May 1 (in the case of a university with a fall admissions program, the date on which the “Number of Students Enrolled” is confirmed after the fall semester has started) of the applicable academic year and the end of the academic year.

If there have been students whose advancement was delayed or who withdrew between April 1 and this period, enter the number in the Remarks field.

[Note by KG]

- Note 2: Since the final figures for withdrawals for the current year are determined in December of the following year, “Of which Withdrawals (C)” is the final number including the period up to December of the following year in addition to that for the current year.

- In the "Remarks" section for AY 2019 and AY 2020, enter the number of students whose withdrawal was decided from April to December of the following year (at the time of finalization).

For “Of which Repeaters (B)” do not include students planning to take subjects over an extended period, students on a leave of absence, students whose advancement was delayed due to a leave of absence, students away on study abroad programs, or students whose advancement was delayed due to study abroad.

For “Of which Withdrawals (C)” include students who were expelled.

For those classified as Repeaters that withdraw during their repeating year, only include them in “Of which are Withdrawals (C),” and not “Of which are Repeaters (B).”

For professional universities that use semesters for their courses, divide them into first and second semesters by department.
